Council Discuss Sabbath
Closing of Baths.

That Balance Sheet Again

The City Council got through a good
deal of work in a business-like manner
on Tuesday evening, and satiated the
press representative by adjourning at
10:30 and for a whole week.

A big budget of correspondence was
read by Mr. G. T. Tipton, solicitor for H. Stiller,
by Mr. G. T. Tipton, solicitor for H. Stiller,
and he effected that his client owned
some lots in block 2 of the Martin sub-
division, and wished to build thereon,
but as neither the streets nor lanes were
out he was unable to get further and
not on terms on to the spot. He de-
sired the municipality to have the streets
cut out.

The Public Works Committee were
instructed to deal with the application.
A suggestion from the Board of Trade
that their secretary should be allowed
the use of one of the new motor cars,
from the Douglas block was referred
to the Town Hall, Market and Police
Committee.

A copy was read of a letter from the
Mayor to Mr. Todd, the landscape gar-
den who was last fall engaged to
elaborate a scheme for the beautifying
of the city, asking him to inform the
Council in immediately what had been
done in the matter, and what his plans
might be expected.

Another copy of a letter read was from
the Mayor to the License Inspector in-
forming him that a resolution had been
passed by the Council to the effect that
the liquor license ordinance should be
strictly enforced, and desiring him to
take steps to have this done. The officer
was advised that in this he would have
every member of the Council behind
him, and if he were unable to enforce
the ordinance some other officer would
be appointed who could do so.

Petitions for the following addresses
were referred to the Public Works Com-
mittee:

1 foot plank walk with bonnet on
west side of Grand Avenue along block
48.
14 foot grassed walk on the north
side of Wythe Avenue along block 48.
4 foot plank walk on the south side of
McDonald Avenue along block 48.
14 foot grassed walk on the east
side of Main Street along block 48.
14 foot grassed walk on the west
side of Main Street along block 47.
Grassed walks on both sides of
Dugan Street from Wythe Avenue to
Buckingham Avenue.

The Public Works Committee reported
that they had decided on the purchase
of a 10-horsepower road roller from the
J. I. Case Co., and a Studebaker
truck.

The interest which the members of
the Fire Brigade take in their work was
shown by a report of the Fire and Light
Committee that the Brigade were will-
ing to purchase an additional team for
their purposes if stable accommodation
were provided in the remodeling of the
hall.

The question of police accommodation
being raised, Alderman McFarland said
that the hall at the base of the hall
could be moved to one side and re-
built to serve as police quarters. It was
suggested to move the cells out of the
Fire Hall to allow of stabling for two
teams.

The matter was left with the Fire and
Light and Town Hall, Market and Police
Committee, with power to act.

The Chairman of the Public Works
Committee complained that the public
works team, which had been appropriated
to the Fire Brigade, were kept standing
idle all day when they were badly
needed for work on the streets.

Alderman Elliott said the Fire and
Light Committee were having some dif-
ficulty in getting a suitable team for the
Fire Brigade, but hoped to procure one
soon. He suggested that in the mean-
time they should go back to the old
system of giving \$5 to the first team on
hand in case of a fire call. This would
release the public works team.

The Public Works Committee recommended
that they had ceased hauling gravel, as
the gravel they had been obtaining of
late was poor quality.
Mr. Fisher, lessee of the bath rooms
and barber shop in the Strathcona
House, applied for permission to open
the bath-rooms on Sunday mornings.
The Chief of Police had, he said, ordered
him to keep them closed. The proprietor
of the hotel wished to have the bath
open for the use of his guests. In every
other town in Alberta they were allowed
to be open.
All members of the Council except
Alderman McFarland thought Mr. Fisher's
application was perfectly reasonable, but
that Alderman strongly opposed it.
He did not see why they should con-
tinue any kind of Sunday trading, and
the fact that every other town in Alberta
allowed it was no reason why it should
be allowed in Strathcona. A guest in
the hotel had a right to take a bath,
but if it were paid for that was trading.
The Mayor pointed out that the hotel
was charged for baths.
Alderman McFarland said a bath man
before every body else on Sunday morn-
ing, and Alderman Elliott said there were
lots of men who could not take a
bath any other day.

Alderman McFarland thought the
case should not be decided without re-
ference to the Chief of Police, who might
have good reason for closing the bath.
He moved that the matter be referred
to the Town Hall, Market and Police
Committee. Alderman Crawford sec-
onded.

Alderman Rankin moved in amend-
ment that the application be refused, but
could get no second, and the original
motion carried.

The Secretary-Treasurer drew atten-
tion to the fact that his application for
assistance in his department, referred to
the Finance Committee, had not been
attended to. He could not get on with-
out assistance.

Committee Rankin brought up the
new famous and long promised balance
sheet, which he thought should be ob-
tained before they discussed the question
of spending more money on the Secre-
tary's department, but the Mayor re-
minded him that the Secretary had
nothing to do with the balance sheet,
which was being prepared by the
Auditor. The Auditor had stated that
he expected to have the balance sheet
ready in about a week.

Alderman Rankin asked if the ac-
counts would now be kept up to date.
The Mayor replied that the accounts
The Accountant would be kept up to half
an hour per day in his office now, so ap-
parently it was easy to keep the books
up to date.

Alderman Crawford suggested that
more money should be found for the
Accountant, as apparently he had not
sufficient.

Alderman Rankin thought the Fi-
nance Committee should undergo a
strong reprimand from the chair and be
instructed to bring a report, the Mayor
responded, but the Mayor was of the
opinion that the action of the committee
should be discussed more freely in the
absence of the chairman (Alderman
McFarland).

Alderman Rankin said about a year
ago the Secretary's department was
started with an expenditure of \$1,000.
Now they were spending about \$2,000
and were losing about \$500 more.

The Mayor said the Secretary had too
much to do, and was worn out. He was
the busiest man in the city.

Alderman McFarland said this was a
most mysterious business. The Auditor,
who was a competent man, had refused
to him that when the question of dis-
cussing the work came up that the Ac-
countant's work was the bigger part, and
now they had the Accountant doing his
work in half an hour a day.

Alderman Rankin thought they
should have the statement of the Ac-
countant before doing anything. If his
report was found to be in error, a
Committee might make a recommendation.

It was resolved that the Secretary be
instructed to write the Auditor asking
him to bring in a report on the finances
of the city and the state of the Ac-
countant's work next Tuesday night.

It was further resolved that the matter
of salaries for the Secretary be
left to the next meeting pending the re-
ports from the Auditor and the Finance
Committee, and that a stenographer be
engaged for the week to assist the
Secretary.

The presentation of a hospital bill
was discussed shortly, and it was re-
solved that the Hospital Committee be
instructed to settle the bill, and to
bring and suggest name and report at
the next meeting.

The Mayor drew the attention of the
Council to the laying out of block 48,
which was without a lane. There was
room for a lane, but it was not a
pole, and a convenient way for the
sewerage to get to the backs of the lots.
The Public Works Committee was in-
structed to try to get the property own-
ers to give sufficient land to form a lane,
and the location of the lane was now
not yet settled. A copy of a letter
from C. S. Lott to H. F. Sandeman stat-
ing that the lots owned by the city had
been reserved by the owners, the C.P.R.
Co., to give two oil companies a chance
to select a location, and it was very dou-
tful whether they could be got for Mr.
Bailey.

An application was read from the
C.P.R. for a 15 foot strip on West Main
street for teams standing whilst
taking freight from their sheds. The
discussion was deferred until the
approaching trial of the C.P.R. officials
to the city.

The Coal Dispute

Conference Ends Without
Settlement--Govern-
ment Investigation Will
Now Proceed.

The conference held at Fernie
between the mine owners and em-
ployees ended without a settle-
ment, and the work of putting an
end to the dispute will now fall on
the Government. Conciliation
Board, which will soon meet.

The breaking up of the conference
without a satisfactory result was
unexpected and disappointing.
On Wednesday, after the demands
of the men had been presented,
MacKenzie King and the President
and Vice-President of the Miners' Union
expressed themselves as being
hopeful of an ending satisfactory
to both sides. Yesterday morning
the owners presented a counter pro-
posal to the men, and retired to
give the latter a chance to discuss
it. On their return they were told
that their proposal could not be ac-
cepted, and immediately left the
room.

The miners are excited, and it is
thought that the Government may
use strong means to end the trouble.

Vice-President Whyte on Wed-
nesday stated that the C.P.R. had,
as soon as a dispute in the mining
district became probable, taken
steps to import large quantities of
coal, and there was no danger of a
tie-up on that line.

SOME RECORD PRICES

REACHED IN STRATH-
CONA REALTY THIS
WEEK.

The past week has been an extra
busy one in the line of large real
estate deals. Land in the vicinity
of the University seems to be most
in demand, although some good
sales of inside property have been
reported.

Through the agency of the
Strathcona Real Estate Co., Mr. R.
McKernan sold thirty acres of his
farm at Mr. A. G. Baslin for \$17,000.
This property adjoined
Dean Park, and is high and dry.
It will be surveyed at once and
placed upon the market as an addi-
tion to Dean Park.

Messrs. Gallagher & Millar also
purchased from Mr. McKernan, son
John and Wesley, forty-two acres
for a consideration of \$35,000.
This property will in all probability
be subdivided and placed on the
market.

The Strathcona Agencies report
the sale of the Blowing Rock to
Mr. R. McKernan for \$15,500.
Messrs. J. G. G. Tipton & Son have
purchased a property was purchased
a couple of months ago for \$17,000.

Through the agency of J. G.
Tipton & Son the Plaindealer Co.
bought the Alberta House, at the
corner of Main Street and Mc-
Donald Avenue, for \$12,000. This
property belonged to Sam Lee, who
is at present in China, and was
purchased by him for a very small
sum.

Elisabeth's implement shed oppo-
site the Royal was sold early this
week to two well-known local busi-
ness men for \$12,000.

Messrs. J. G. G. Tipton & Son have
bought the Plaindealer Co.'s build-
ing for \$14,000.

DIED.

WILKINSON--At Edmonton General hos-
pital on Sunday, April 21st, George
Percy Wilkinson, of Clover Bar, aged
twenty-three years.

Deceased was a brother of Mr. W.
Wilkinson, of Clover Bar and had been
working on the G.T.P. bridge there.
About two weeks ago he contracted
typhoid fever, but to the end strong
hopes were entertained for his recovery.
The funeral took place on Tuesday
from the home of his brother, interment
at the Clover Bar cemetery.

The best Sub-division on the market to-day

RICHMOND PARK

Let me tell you the reasons.

FIRSTLY---It is only four blocks from the C. P. R. Yards, Car Shops, Round House, etc.

SECONDLY---It is well within the City Limits and more central than subdivisions that have been selling at double the price,

It would therefore be a good idea for investors to call into our office and see our prices before buying elsewhere.

W.C.T.U. NOTES.

Contributed by the Ladies of the Strathcona Branch.

The attention of the License Inspector and the Police of Strathcona, is called to the fact that the Beer and Wine Act is openly and secretly offending the Liquor License Law.

These notices places make no pretense of closing their evil doors at 11.30 p.m.--the front door sometimes, but not the back.

Sunday nights--Not an uncommon sight to see men obtaining liquor. Sunday, April 21st--witnessed this sight.

At the Dominion whiskey shop--certainly tightly drawn regulations of Section 66 of the Liquor License Law.

A recent fatal accident brings before the public Section 79 of the License Law. Any person causing by his death or accident or accident to another person, the person who delivered the liquor whereby such intoxication was caused shall be liable for damages, at the suit of legal representatives of the deceased person--such action being brought within 12 months.

In event of final judgment being recovered against this man, or in any action under this section the license shall be forfeited and thereafter null and void. Let us hope before 3 months expire, such action will be taken. It would be a clear case, and would rid Strathcona of one of its many vile whiskey dens.

What does the Inspector draw his pay for, anyway, I wonder.

We are very glad, indeed, to hear that the Mayor and council recommend that the Inspector attend to his long neglected duties, and for their evil doers to obey the law. It would seem from past observations that the Police were not detecting the Whiskey Element rather than that and rights of respectable citizens, for it is our right--and we mean to have it--that this hellish, soul-destroying trade be kept strictly within the legitimate, liberal bounds the voters have been pleased to give to it.

Something New In Weed Inspection.

The Alberta Department of Agriculture is making a new departure in weed control. Believing that it is possible to do something along the way of combating the spread of weeds, besides ordering the destruction in summer of crops which are badly infested with them, the Department has sent out all the weed inspectors in the Province for a week to see what can be done to ward off the invading farmers to adopt methods of cultivation which will tend to encourage the germination of weed seeds and the destruction of the young plants, before the crop is grown.

With this object in view, last week the local inspectors were furnished with a book in which they noted those fields that were very dirty and which seemed to require special attention. They were then enabled this spring to proceed without loss of time to the weed places to discuss the weed situation with the owners and to leave them the following circular as a memorandum for their guidance. It contains suggestions which may be useful to other farmers besides those who had to be visited on account of having dirty farms.

Methods of Cultivation Suggested Where Land is Badly Infested with Weeds.

It is always best to burn the stubble in the spring if possible. This will destroy many weed seeds and the land will be better when there is no stubble.

Disk as early in the spring as possible and harrow. This covers the weed seeds and encourages their germination.

When the small weed plants are seen all over the field the land ought to be disked and harrowed again to destroy them and encourage the germination of a new crop.

About the beginning of June the land should be plowed and packed if possible, and if not, at least harrowed every day as it is plowed, and a crop of winter barley sown. It is safe in Strathcona to sow this barley up till the middle of June.

When the crop is about six inches high it will be found of great advantage to harrow it, as this will destroy any weeds which may have sprouted, and help to encourage the growth of the crop.

If there is still a quantity of weeds in the crop when it approaches maturity, it may be cut as green feed before the weeds are ripe. Usually, however, it will be found that the growth of the crop will choke and kill any weeds which may come up afterwards.

When the wheat is grown the method of disk and harrow at frequent intervals during the summer should be continued until it is time to plow for the fall wheat.

Note--It is particularly important to disk and harrow as early as possible in the spring and also to harrow the growing grain when it is six inches high.

W. J. FRASER,
Dealer in
MEN'S BOOTS & SHOES
REPAIRING NEATLY DONE
Main St. South,

Lamont.

(Unavoidably held over from last week.)
The farmers round here have been selling their stores, and have been receiving Alge, a very good price. Others, especially away down in Vermilion Valley, have sold for Alge, but 2 per cent. is deducted when delivered and paid for, some time in June.

Water seems to be getting scarce at Lamont, the wells drying up, and this seems to be universal all over. Mr. Hattabaugh is now at Lamont with his well borer, and has started for Walker, Reid & Holmes. Others require his services, as water must be got. A depth of about 200 feet is needed to give a full supply.

Mr. Ben Myrren is at present in Strathcona, where he owns property. Mr. Alexander and Mr. Sears are leaving to take up their homesteads some way beyond Riviere Qui Parle.

Matt Campbell is preparing to go on his homestead, a few miles north of Lamont. He has been living for three years on Joe Hackett's old farm.

The new school house at Beaver Creek will be up and finished about July. It will cost close on \$1,000. The school tax will be \$10 per quarter section--a pretty high figure. It is evidently a new schoolhouse has to go up.

We took a walk around lately, and learned how things change even in this little corner of the world. There were only a little over a year old--we counted five good stores, a hotel, an elevator, a barn, a blacksmith shop, a blacksmith, a saddler's shop, drug store, post office, restaurant just to be opened, butcher's shop, creamery, a fine new house, and a fine new union church. A very good show indeed.

We passed on to Sam Campbell's. Sam is doing well; he has a fine lot of horses and cattle, and a lot of land. He had twenty acres of land to the Townsite Co. lately at \$20 per acre.

Then we went on to Jim Hackett's, and had refreshments, and listened to the singing and playing on the organ of Miss Eleanor Hackett. She is a very good singer, and has a fine lot of young girls learn to handle the organ.

Then we went on eastward, passing the Dan's old shack, which is now occupied. This is in Montana; his wife, Laura Riley, is dying of the "white plague."

Then on to Dan Campbell's, again. Beaver Creek, and found Dan doing well, with 7 of a family now. Jack Campbell, Fred in Lamont, and a man there, with J.P. at the end of his name.

From there we went north on to Wm. Matfield's old place. William is now on Mr. W. Williams' farm near Lamont. Then we came to the farm formerly owned by Riley, which is at present in Montana. R. Torrey bought this farm, but he has left it, and is now in Lamont, occupying a fine new house there. Bob sold the farm to an American, but it is at present no one is leasing it on.

Then we came to Star. "Ishbel" seems written all over it. Lamont reads a new school and star comes to the west. What changes a railway creates! J. D. Campbell is still living near the bridge, but speaks of going away to the Flaming Stone, where his cattle are.

We crossed the bridge, and to our left was the late A. R. Lang's old farm, now owned by Mr. J. D. Campbell. Then we came to Chipman, and Mrs. Lang lived at Owen Sound. Then we came on past Tom McVie's farm. Tom is now in Strathcona, but his farm is occupied. Carl McVie's farm is unoccupied. Carl having sold it and also gone to live in Strathcona. Then we passed J. H. Baker's place, lying all forgotten, and Humphrey Pringle's homestead, also forsaken. Humphrey died several years ago, and his widow lives at Cooking Lake. Then we notice a dark-looking castellated building away to our right, which belongs to Alf Gray, one of Strathcona's "big boys." No one lives on the farm now. George Gray's old place is occupied by Mr. Markle.

What changes have taken place in a few short years! How one feels the pang of a way of all earthly things, looking at the scenes described! We can truly say with the poet: "There is no ending feeling; only God and the soul." 15 April 1907.

Colonial Premiers
Assembled in London.

The colonial premiers assembled in London last week ready for the opening of the colonial conference. They were enthusiastically received. Each of the premiers was presented with a gold case containing his letters patent as a freeman of the city, and all were entertained at a luncheon in the Guildhall by the Lord Mayor and corporation. There were also present the Archbishop of Canterbury, Premier Campbell-Bannerman and other Cabinet ministers, Field Marshal Lord Roberts, many peers and members of the House of Commons, and numerous military and naval men. Sir Wilfrid Laurier was chosen to reply to the Lord Mayor's toast to the premiers.

General Booth the ex-Border leader, was the hero of the hour, his reception both by the populace during the procession through the streets and by the officials at the Guildhall being very flattering.

The Chapleau Train Wreck.

The following is the verdict handed in by the jury at the coroner's inquest on the bodies of the victims of the Chapleau accident:

"That the death of the deceased and other unfortunate victims was caused from injuries received in a railway accident on the main line of the C.P.R. at about 11:30 a.m. on the 10th of April, 1907, at Windermere or Wawa lake, twenty-two miles west of Chapleau. The immediate cause of the accident, or derailment of train was a broken rail located in a curve around which the train was running at the time. No blame is attached to any of the railway train crew or to the roadmaster, section man or any of the employees of the railway company for the accident. The train was lighted by acetylene gas, except one coach, and upon derailment the gas escaped and ignited and seems to have prevented to a certain extent, at least, the occupants of one of the coaches from escaping and to render all attempts to rescue almost useless. The jury is strongly of the opinion that had it not been for the fire that broke out on the coaches almost immediately after derailment the accident would not have been attended with such marked fatality. We, the jury, having viewed the scene of the disaster and having carefully considered the facts placed before us, would strongly recommend a safer method or means of lighting trains than by gas."

Braves on Broadway.

Indians in War Paint Fought on Crowded Street.

The spectacle of two Sioux Indians in full war paint in what might have been a fight to the death if interference had not come, created almost a panic in crowded Broadway, New York. Big Charger and Dan Wolf, the offenders, are both under arrest. They were walking down Broadway together in all the splendor of their war paint and feathers, when they got into an argument over Charger's wife, now dead. The man appeared to become angry and suddenly Charger drew a revolver and pointing it at Wolf's head, fired twice. Both bullets went wild, and as the crowd in the street scattered, the men prepared to continue the fight, but a policeman and a bystander sprang upon Charger and strangled the revolver from his hands before he could fire. In an instant Wolf sprang to his feet, fired a bullet into the air and attempted to free him from his captors. He was not successful, however, and soon both Indians were hauled up.

Report on the Lumber Investigation.

Committee Says a Combination Exists.

OTTAWA, April 19.—In the Commons the committee on the lumber investigation reported to the House on the investigation of the lumber trade in western Canada. The report declares that the price charged for lumber in western Canada is not a free market, but is a combination of interests. The report also declares that the price charged for lumber in western Canada is not a free market, but is a combination of interests. The report also declares that the price charged for lumber in western Canada is not a free market, but is a combination of interests.

The committee also found that more recently the manufacturers formed an association known as the British Columbia Lumber and Shingle Association and the Manitoba Lumber Manufacturers' Association, which, in the opinion of the committee, amount to a combination, and they suggested with the three and retail associations.

A good deal of evidence was submitted to show that the prices were not excessive, but the committee thought that there should be more evidence as to cost of production to the manufacturers.

The committee added that they had taken into consideration the fact that most of the lumber to settlers is materially affected by the cost of freight, as well as by the cost to and profit of manufacturer and retailer.

The report makes no recommendation as to how remedy.

Accidentally Shot At Innisfree.

A Russian settler named Kulak was accidentally shot on Monday at Innisfree by a fellow countryman who was carelessly handling a loaded gun. The two men were members of a party which was just leaving the village.

Hyman Has Really Resigned.

In the House of Commons on Monday the speaker announced that he had received the resignation, duly witnessed and signed and dated April 11th, of the Hon. C. S. Hyman as member for London.

An Honest Man

(Continued from page 1)

Mr. James Wilson son of Anson's veteran old-time business man, had had such a striking example of the length of one man's memory and the strength of his honesty. The man in question struck Anson about forty years ago to go to work here. After arriving, he found it necessary to get a new reporting done, to his stone, but, having no money, he had to leave Mr. Wilson to trust to his honesty. Mr. Wilson gave the stranger the required credit the understanding being that payment was to be made as soon as the man secured work. Mr. Wilson then had his shop down at the old village, and did quite a little credit business. Sometimes a young man would come along and get some small job done "on tick," and then he would leave him never to be heard of again, perhaps by the man he owed. Since those days there have been many changes both in the life of the shoemaker and in the life of the man who secured a loan of credit referred to. Mr. Wilson has been away from the old village stand for many many years and is now a few years past the eighty mark. The man referred to has also seen many changes and is now in Manitoba, where he is doing well and enjoying good health. In the letter which he wrote a week or two ago to Mr. Wilson he said that little things had continued to come up and caused him to neglect paying his honest debt to the shoemaker until at last he had forgotten the exact amount. However he sent along in his letter, together with apologies for his tardiness a nice five dollar bill which would recover the original debt and accrued interest for the forty-odd years which he had allowed the account to run. Mr. Wilson had forgotten all about the matter, but the letter brought back both man and account to his mind, and he is proud to have discovered at least one honest man in the life journey of over eighty years.

Cuba Will Soon Be Left Alone.

Washington, D.C. April 22.—United States Secretary of War Taft and party, arrived at the Washington navy yard on board the Mayflower tonight, after an absence of exactly a month on a trip that included Panama, Cuba and Porto Rico. Later Secretary Taft gave out a statement in which he said he found matters in Cuba in what, under the circumstances, must be considered a satisfactory condition; that there is every ground for hope that the plan adopted by the census preliminary to election, then a general election six months later will result in the selection of a president and congress who will be able to maintain themselves and give stable rule to the island, and that the delay in taking a census is taken by the Cubans as an earnest of the American government's desire to secure a stable government before it leaves, so there will be no excuse for a second intervention.

LOCAL

Court Strathcona City No. 1083 C.O.F. meets in the Orange Hall next Friday evening, May 3rd. All the brethren are requested to attend.

It is expected that a large delegation of the local Orangemen will journey to Wetaskiwin this afternoon where the Royal Arch Degree is being conferred upon several candidates.

A meeting of the Holy Trinity Church Building Committee was held on Wednesday night. Plans for the new church building were accepted, and tenders will be called for as soon as the specifications are complete.

Tonight an oratorical contest will be held in the Methodist church between the members of the W.C.T.U. Seven contestants are taking part and special music will be provided. Admission is Everybody welcome.

"B" squadron from Canadian Mounted Rifle will resume its weekly drills commencing tomorrow evening, April 27 at 8 P.M. The three squadrons will go into training camp in the city of Calgary from June 20th till July 30th. The 10th Light Horse and the Alberta Rangers will also train at the same time and place.

"Every woman appreciates a beautiful complexion, so much desired by men. Such complexion comes to all who use Hollister's Rocky Mountain Tea.

Mr. J. F. Radford this week commenced the moving of the Methodist Church to allow for the construction of the new one on the old site. The building was shifted about fourteen feet from their seat and will be used as a place of worship until the new one is finished.

There are many loaves in the land. As by the means you can see. But none of them can equal Hollister's Rocky Mountain Tea.

A petition is being circulated for a public library in Strathcona. Under the provisions of the Public Libraries Act passed by the Legislature last session the Provincial Government undertakes to contribute, in case of any municipality establishing a library, a sum equal to that contributed by the municipality.

The application of the International Heating and Lighting Company of Cleveland, Ohio, for a franchise passed the Edmonton Council on Tuesday and will now go before the mayor of that city. It will be remembered that this company secured a franchise in Strathcona some time ago.

The auction sale of D. P. Varnum's farm stock, implements, etc., held on Thursday, April 26th, was one of the most successful of the season. Auctioneer Crawford disposed of \$2,875 worth of farm chattels in the time of two hours and a half. This was certainly quick work, and stands as a record for the district.

Sanitary Inspector H. T. Barwell wishes all householders to take notice that all manure, etc., must be removed from the back yards before May 1st. After that date the city will do it at the expense of the householders.

The fears entertained early in the winter that this season's crop of wheat would be small proved to be without foundation, as the late spring allowed the men to be kept at work full a month longer than usual. The output will, therefore, be about the same as last year.

Grawford and Wicks, Auctioneers, will conduct a big Auction Sale of furniture at their new Auction Rooms West Railway Street, tomorrow (Saturday afternoon) also Drugs and Patent Medicines.

Thousands have pronounced Hollister's Rocky Mountain Tea the greatest healing power on earth. When medical science fails, it succeeds. Make you well and keep you well. 30 cents, Tea or Tablets.—H. Duncan.

Mr. D. L. Ghoramly in having a plate glass front installed in his store, which is greatly improving the appearance of the same.

The Strathcona Old Fellows will arrive to the Baptist Church next Sunday afternoon, where a special church service will be held, Rev. W. R. George officiating. The service commences at ten, and all members are requested to be at the Old Fellows' Hall not later than one o'clock. The public are cordially invited to attend.

SOCIAL AND PERSONAL.

Mr. and Mrs. A. Holton, of Pincher Creek, have returned to Strathcona, where they will in future reside.

Mr. and Mrs. Rice Sheppard returned on Monday from an extended visit to England.

Rev. A. C. Farrel, of Leduc, was a visitor in Strathcona on Tuesday.

Mr. D. S. McKenzie, Deputy Minister of Education, went to Calgary Tuesday morning.

Mr. A. C. Farrel, of Leduc, was a visitor in Strathcona on Tuesday.

Mr. J. E. Carmichael returned last evening from Kingston, where he has just completed his second year in Queen's University there.

Mr. A. Armstrong, of Leduc, was a visitor in Strathcona yesterday.

Lonely Settler Succides
Tragedy Near Padilla River

On Sunday evening last the dead body of Henry Dwyer, a householder, was found in his home near the Padilla River. The deceased was lying in his bunk with his head on the wall. He had removed the bed and, from his right foot and tied one end of a piece of string round the foot and the other end to the trigger of a single barreled shotgun, which was found lying on his body.

A note was discovered which stated the intention of the unfortunate man to commit suicide and asked whoever found him to bury him in the woods.

At an inquest held in the neighborhood the jury returned a verdict of suicide without of unusual mind.

Alberta
Football Association.

At a meeting of the above association held in Edmonton last Saturday the following officers were elected for the coming year:—

Hon. Vice President, Premier (Rutherford); Hon. President, J. A. Jackson, Ponoka; Vice President, H. H. Littlejohn, High River; Secretary-Treasurer, N. S. Short, Edmonton; Committee, E. C. Ward, Edmonton; and Dr. Connolly, Vegreville; Judiciary Committee, Inspector J. T. Ross, Strathcona; N. A. Dixon, Fort Saskatchewan; and H. B. McClinton, Edmonton.

All amateur football clubs in the Province are eligible for membership, and about twenty teams have already signified their intention to join.

Judges' Salaries in Alberta.

In the House at Ottawa on Tuesday a resolution was passed providing for the salaries of the supreme court judges and district court judges in Alberta and Saskatchewan.

Correspondence.

To the Editor of the Chronicle.

In Tuesday's Plaindealer the Post Office question is stated to be one for discussion in Strathcona just now. I agree with the editor of that paper and would be obliged if you would make a space in the Chronicle to take a small part in that discussion.

It is said that less than \$25 per month is allowed for rent but I would like to know how much the total allowance for the office is, and how much of the total income goes to the post-master, who I pay his help, how much he has secured profit for himself and how much of the work he does to earn it?

Does the box rent go to him personally or does any part of it go to Ottawa? I believe the latter is the case. The postmaster is responsible for the miserable salaries paid to the post office help and for the very poor service given. The public I am informed that as low as \$15 per month is paid girls for work in this public institution. If it is so I would like to know if that sum is expected to be competent help, how a girl is expected to exist on such "wage" and she also had her hand to pay low long she would likely avoid starvation at that price!

I believe the Post Office officials at Ottawa are negligent enough of Strathcona but I am very much afraid that there is a considerable rate-of-fraud here which in a very great measure accounts for the unsatisfactory manner in which the public is served and which it suffers. I am

Very truly yours

ENGINEER.

More Wood Pipe Ordered.

Council Decide it is Satisfactory.

On Friday evening a busy session of the City Council was held.

The new Sanitation By-law was passed, and Robert Forsyth, expert sanitary inspector and policeman at a salary of \$600 per month.

A report on the water and sewer system was handed in by the Water and Sewer Committee and the Mayor.

The report was not unfavorable to wood pipe but blamed the system of laying both water and sewer pipes in one trench for the unsatisfactory results obtained. It recommended that in future the pipes be laid in separate trenches.

After discussion in committee of the whole the report was referred back to the Sewers Committee, the Engineer and Sanitation for a conference with the contractors, Messrs. Deiss & Main.

The Sewers Committee reported recommending that wood pipe be general for this season's extensions from the Canadian Pipe Co., and laid under the supervision of a representative of the Co. in separate trenches.

The Engineer estimated that it would cost \$1000 more per mile to lay the pipes in separate trenches.

It was resolved that instructions be given to the Licenses Inspector to have the Liquor License Ordinance strictly enforced.

The Methodist Church trustees have granted permission to move the church building to its new site, and the new building is completed.

Let us show you our Stock whether you buy or not. No trouble to show goods.

Supplementary Estimates

Ottawa, April 19.—The supplementary estimates brought down today include the Northwest territories, harbor, river and bridge works generally, \$5,000; Lesser Slave River, urgent provisional improvements, \$50,000.

For Saskatchewan and Alberta improvement; Old Man's River diversion of stream into original bed at Macleod \$13,500; revolve of amount, \$5,000; improvements to telegraph line Qu'Appelle to Edmonton, \$12,000; other items \$75,000.

For most and cannot foot at \$50,000.

Cold storage warehouses bonuses \$500,000.

For exhibitions \$100,000.

For acquiring census in Manitoba, Saskatchewan and Alberta immigration, \$100,000.

Dominion Indian land office \$3,000.

Edmonton public building \$40,000.

Maple Creek public buildings \$5,000.

Red Deer court house, additional, \$25,000.

Increase Pacific Inspection Corps salary (Calgary) \$500.

For the appointment of three postal inspectors and salaries, three assistant Saskatchewan and Alberta and ten clerks \$14,800 is provided; for appointment of two superintendents of railway mail service one at Calgary and one at Moose Jaw \$8,000; for the appointment of letter carriers to cities and towns as given in council may determine, \$40,000; for readjustment of the salaries of post office clerks and staff at Calgary office \$20,145.

Under the head of immigration there is \$20,000 for expenses incident to the freight blockade in western provinces food provisions and seed grain.

Montreal Has Fatal Fire.

Montreal, Que., April 19.—At three o'clock yesterday afternoon, fire broke out in the second story of the three story brick building on St. Justin st., occupied by the Canada Steam Laundry and Dry Works. As far as is known no lives were lost. The fire started in the building, and there are seven women seriously injured. In the general hospital, seven of the injured employees are recovering from the third story, being terribly injured by their fall. The fire spread with such fearful rapidity that for a few moments it seemed as though a score more lives would be lost but by a rear escape way many of the girls were enabled to make their escape. At ten minutes past three the enormous collection of machinery and in laundry work fell from the third floor. The loss is said to be \$30,000.
